EXAMINER'S AMENDMENT & REASONS FOR ALLOWANCE

1. EXAMINER'S AMENDMENT:

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert C. Kowert (Reg. No. 39, 255) on 07/29/2011.

In the Claims:

Claims 24, 42, and 46 have been amended as follows:

24. (Currently amended) A distributed computing system[[],] including at least one processor for presenting results data, said distributed computing system comprising:

a service device configured to;

receive a request from a client device separate from the service device,

Art Unit: 2176

provide a presentation schema to a first device separate from the service device, wherein the first device is configured to execute a data presentation process, and

generate results data for the client device in response to the request;

the first device configured to:

access the presentation schema, wherein the presentation schema includes information for presenting the results data to the client device;

access the results data generated by the service device; and

present the results data to the client device in accordance with the information in the presentation schema for the results data.

42. (Currently amended) A distributed computing system, comprising:

a storage device; and

a service device configured to:

provide a presentation schema advertisement;

store the presentation schema advertisement on the storage device; and

produce results data on behalf of a client in the distributed computing system;

wherein the presentation schema is comprised in a presentation schema

advertisement comprised on the storage device; and

a space service for accessing advertisements comprised on the storage device;

Art Unit: 2176

wherein the presentation schema advertisement includes information for enabling
access to a presentation schema for presenting the results data; and

wherein, in said accessing the presentation schema, a first device is configured to
access the presentation schema advertisement from the storage device
through the space service, wherein the presentation schema includes
information for presenting results data for clients in the distributed
computing environment, wherein the first device and the service device
are separate devices in the distributed computing environment.

46. (Currently amended) A device [[,]] including at least one processor for presenting
results data, said device comprising:

a data presentation component configured to present results data on the
device in accordance with information for presenting the results data in a
presentation schema; and

a client component configured to:

send a request to a service in a distributed computing environment,

wherein

the service executes on a different device in the distributed computing
environment than the device comprising the data presentation component
and the client component,

the service generates the presentation schema, and

the service generates the results data for the client component;

Art Unit: 2176

access the presentation schema provided by the service in a distributed computing environment, wherein the presentation schema includes the information for presenting the results data generated by the service;

access the results data generated by the service; and

provide the results data and the presentation schema to the data presentation component;

wherein the presentation schema is comprised in a presentation schema advertisement comprised on a storage device in the distributed computing environment, wherein the storage device stores a plurality of presentation schema advertisements, and wherein, to access the presentation schema, the client component is configured to access the presentation schema advertisement from the storage device through a space service associated with the storage device.

2. REASONS FOR ALLOWANCE:

Claims 1, 3-8, 10-17, 19-48, and 51-57 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 2176

Interpreting the claims in light of the specification, Examiner finds the claimed invention is patentably distinct from the prior art of record.

The prior art does not expressly teach or render obvious the invention as recited in independent Claims 1, 24, 42, 46, and 48.

Dependent Claims 3-8, 10-17, 19-23, 25-41, 43-45, 47, and 51-57 are allowed as they depend upon allowable independent Claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
